EN ROUTE FOR CAMPUS 2023

HIGHLIGHTS OF THE YEAR 2020
- Foundation and School

IMPACT OF DONATIONS
- Development projects supported by the Foundation
- Key figures of the Foundation in 2020

THANK YOU
- Donors are committed
Dear friends and donors,

For more than a year now, we have had to deal with the Covid 19 crisis, which has been particularly hard on our students. Our school has successfully coped with this crisis and adapted to it, thanks in part to its pioneering spirit and its premonitory Digital Augmented Campus.

Paradoxically, thanks to your generosity and solidarity, the ESSEC Foundation, which is celebrating its 10th anniversary, had a good year in 2020, with donations up 57% on the previous year.

This is explained by the arrival of new donors, including Accenture, which will contribute to financing a building on the new ESSEC campus named after its late CEO, Pierre Nanterme (E79), who passed away two years ago.

In this regard, the campus 2020 project will be renamed “campus 2023” as the project has entered its second construction phase and the fundraising campaign will run until completion.

The solid results of the 2020 fundraising campaign will also make it possible to increase the budget for social scholarships from €850,000 in 2020 to €1.1 million in 2021, funded by the ESSEC Foundation. To take this a step further, the school has decided to use half of the tuition fee increase to augment the scholarship allocation.

Equal opportunity and diversity are priority issues for ESSEC and its Foundation. In this regard ESSEC was a pioneer in the development of tuition and, with its partner banks, has set up a zero interest loan with no deposit to finance tuition fees. Our least privileged students are especially suffering from the pandemic. We need your donations more than ever to help them. Thank you for your generosity and your commitment to ESSEC.

With kind regards,

Thierry Fritsch (E80),
President of the ESSEC Foundation
Dear Donors,

Our world is going through a complex period, which presents us with major economic, ecological, health and social challenges. In this context, true to its pioneering spirit, ESSEC is committed to inspiring new forms of leadership that are meaningful and have a positive impact.

This ambition is reflected in our RISE strategy, launched in October 2020, which is based on three main themes. Our 360° ecological and social transition approach, entitled ‘Together’, aims to transform our education, research and campus life - in particular with Campus 2023 - to meet ecological and social challenges. Inventing the answers to these challenges requires innovation, experimentation and the creation of new business and economic models. ESSEC is also committed to investing in its entrepreneurship and innovation ecosystem through the Enlightening Entrepreneurship initiative, strengthening its curriculum, incubation tools and support processes to make ESSEC a unique platform for entrepreneurship, intrapreneurship and innovation. Finally, aware that cutting-edge technologies are more than ever required to enable societal progress and ensure sustainable economic development, ESSEC has created Metalab, a unique multi-disciplinary ecosystem combining expertise in the physical and social sciences to shed light on practices at the intersection of “data, technology and society”.

By supporting the Foundation, you make it possible for all talents, regardless of their origin, to be integrated into our programmes and for ESSEC’s major developments and academic excellence to succeed.

Thanks to all of you who, through your donations, allow our beloved school to continue to “enlighten, lead and change” our world, to create value and make it more sustainable, more inclusive, and more just.

Vincenzo Esposito Vinzi,
Dean and President, ESSEC Business School
ESSEC KEY FIGURES

- 60,000+ ALUMNI around the world
- 38.8 % INTERNATIONAL students
- 2,000 DIPLOMAS awarded each year
- 32 DOUBLE DEGREE programmes
- 5,000 MANAGERS in executive education
- 3,000 PARTICIPANTS in customized programmes
- 48.38 % male students
- 51.62 % female students
- 7,050 ETUDIANTS in initial training
- 4 CAMPUSES + 1 augmented digital campus
- 200 PARTNER UNIVERSITIES in 45 countries
- 500+ PARTNER COMPANIES in education and recruitment

FRENCH AND EUROPEAN RANKING

- 1st GLOBAL BBA
- 2nd GRANDE ECOLE
- 3rd MASTER IN MANAGEMENT
- 4th MASTER IN FINANCE
- 6th EUROPEAN BUSINESS SCHOOL
February | NEW-YORK FOUNDATION COCKTAIL
Donors and graduates based in New York gathered at The Pierre Hotel, made available by François Luiggi (H92), President of ESSEC Alumni USA, with Thierry Fritsch, members of the International Advisory Board and Vincenzo Vinzi to discuss ESSEC’s major projects, the Foundation, and the links between ESSEC and the United States, particularly through the new double degree with the Parsons School of Design.

March | FOUNDATION CEREMONY IN PARIS
The ESSEC Foundation ceremony is both a solemn and significant moment. It brought together the professors distinguished for the excellence of their teaching and research, and the winners of the Dean’s list, thus illustrating two major areas supported by the Foundation: social scholarships and academic excellence of the school.

November | UK VIRTUAL EXCHANGE
Benoît Verbrugghe (M99), a major donor of the Foundation and member of the Campus 2023 Development Committee, organised a videoconference bringing together donors and alumni based in the UK, alongside Gilles Pélisson (E79), President of the Campus 2023 Development Committee and Thierry Fritsch (E80). Vincenzo Esposito Vinzi presented ESSEC’s new RISE strategy and the Foundation’s role in it.

November | MAJOR DONORS’ DINNER IN PARIS - POSTPONED
This event has been postponed and will take place in the second half of 2021 if the health situation allows it.

November | The ESSEC CAPTAIN CHOMEL DE JARNIEU AWARD
The ESSEC Foundation, together with the School and ESSEC Alumni, has launched the first call for projects for the ESSEC Captain Chomel de Jarnieu Award. This award, created in homage to Romain Chomel de Jarnieu (E08), will reward each year for 10 years a project carried out by an ESSEC student association for a human commitment to help people in difficulty.
September | A NEW PARTNERSHIP WITH BOSTON UNIVERSITY
Boston University’s School of Hospitality Administration (BU SHA) and ESSEC Business School formed a partnership. Students of the MSc in Hospitality Management (IMHI) will now have the opportunity to spend part of their studies in Boston - an opportunity that allows them to benefit from courses taught by internationally renowned practitioners and an internship in the United States.

October | 3 NEW CHAIRS
Announced during the Global Sports Week in Paris, the ESSEC Sport Chair develops research and teaching around the strong links between sport and management. The Food Business Challenges Chair is dedicated to the transformation of companies and agri-food systems. Finally, the Shaping the Future of Finance Chair focuses on the challenges of sustainable finance and responsible leadership.

October | 10,000 SMALL BUSINESSES PROGRAMME WITH GOLDMAN SACHS
The Goldman Sachs Foundation has chosen ESSEC as its academic partner for the launch in France of its “10,000 Small Businesses” programme. Designed to help small business leaders, this programme aims to foster sustainable business growth, leadership resilience and long-term job creation in France.

October | ESSEC UNVEILS ITS NEW RISE STRATEGY AND SIGNATURE
ESSEC has made a strong commitment to become the benchmark school for supporting and positively influencing the way in which we respond to the major issues that affect companies, organisations and society. The School’s new RISE strategy sets out its ambitions for the future and is based on three pillars: the 360° ecological and social transition, entitled “Together”, the promotion of entrepreneurship and innovation through the Enlightening Entrepreneurship approach, and the creation of Metalab, at the crossroads of data, technology and society. This new ESSEC strategy has given rise to a new signature “Enlighten. Lead. Change.”, in French “éclairer, impulser et transformer”.

November | COLLABORATION WITH OECD
ESSEC works closely with the OECD on strategic issues. Thanks to the contribution of a large number of professors, ESSEC participates in the Business for Inclusive Growth (B4IG) initiative, which brings together the leaders of 40 of the world’s largest companies. Vincenzo Vinzi also sits on the Board of the initiative. In the framework of Metalab, several of ESSEC’s professors also contribute to the OECD AI Policy Observatory.
SOCIAL SCHOLARSHIPS
SUPPORTING EQUAL OPPORTUNITIES

+ 25% increase
in the number of scholarship applications in 2021

1,880 social scholarships
awarded since 2011

1.1 million
budget needed for scholarships in 2021

14,500
maximum amount of a one-year scholarship

100% of scholarship students admitted
to the Grande École and Global BBA programmes
have been supported by the ESSEC Foundation.

Through its “Together” approach, one of the pillars of its new strategy, ESSEC is pursuing its strong commitment to equal opportunities. In addition to its tutoring programmes “A Grande École, why not me?” and its “TrouveTaVoie” scheme, which reach more than 60,000 secondary school students, ESSEC plans to welcome a growing number of scholarship students by 2023, notably by developing the CAP PREPA and CAP ESSEC programmes. The Foundation supports ESSEC in its commitment to a more inclusive and just world through social scholarships financed by the generosity of its donors.

Since the creation of the Foundation, the number of requests for social scholarships has been increasing. Through your donations, you can change the course of many talented students and give them the opportunity to realise their dreams and plans for the future.

The Sofronie Foundation, as in previous years, donated €36,000 in 2020/2021 to support 7 scholarship students selected on the basis of their curriculum, their financial needs and their personal and professional motivation.
SOCIAL SCHOLARSHIPS
THE IMPACT OF YOUR DONATIONS

A GIFT OF €14,500 = A SOCIAL SCHOLARSHIP
FOR ONE STUDENT FOR ONE YEAR
(Maximum amount of a social scholarship)

Discover the impact of your donations on equal opportunities, social and cultural diversity and on the spectacular impact that this implies for teaching at ESSEC.

Without the Foundation’s scholarship, I would be restricted in my professional choices. I was able to do a double degree with the École du Louvre and live in Singapore for five months. I would like to create a start-up that mixes art and big data. There are many possible applications both in the art market and in the study of audiences. My first salary went to the ESSEC Foundation to finance the scholarships.

Isabelle Urbah (E18), donor and former recipient of a social scholarship

The Foundation’s scholarship allows us to bring diversity and plurality to the school, which is essential for its development. It allows me to invest fully in student and community life and to flourish at ESSEC.

Lucas Adolphe (E23), recipient of a social scholarship

It is thanks to the generosity of donors that ESSEC can remain accessible to talented students without their financial resources being an obstacle.

SHE CHOSE TO DONATE TO THE ESSEC FOUNDATION:

“Beyond equal opportunities, diversity, whether social or cultural, is an asset for ESSEC. Positive friction and the confrontation of points of view from different social and cultural backgrounds will result in spectacular enrichment. I continue to give so that as many students as possible have access to ESSEC’s education”

Sophie Gilhodes (E92)
In 2023, three new buildings will radically transform the way we teach, research, live, work and study on the Cergy campus. This year will also mark the beginning of a new campus that will change the academic experience. This ambitious project has been renamed CAMPUS 2023.

A GREEN AND ECO-RESPONSIBLE CAMPUS

This new campus is at the heart of ESSEC’s strategy, which is committed to the environmental transition with its “Together” approach. The School’s ambition is to transform the Cergy campus into a model eco-responsible campus. Designed to be an example in terms of energy, recycling, biodiversity and the circular economy, it will improve the energy performance of buildings and the production of green energy. The campus will also be able to recover and reuse rainwater.

The Pierre Nanterme Centre for Responsible Leadership will be a unique place for educational innovation and research on new responsible leadership practices.

2017-2020 / Phase 1
Project preparation / Design / Development

2020-2023 / Phase 2
Construction / Implementation

2021-2022
Sports and Recreation Center

2022-2023
Pierre Nanterme Center for Responsible Leadership & Green Research Tower
For many of us, our memories on campus have forged our attachment to ESSEC. The Campus 2023 project aims to anticipate new ways of learning, living and working. Its objective: to make tomorrow’s teaching methods a reality for the next generations of ESSEC students. This is why alumni mobilisation is a pillar of success of this project, thanks to the dynamics of our communities: clubs, sections, graduate classes...

In addition, supporting this project meets one of our missions, enshrined in our statutes: to help the School in its fundraising activities and to organise mutual aid among alumni.

Olivier Cantet (E87),
President of ESSEC Alumni
CAMPUS 2023
ALUMNI ACTIONS FOR CAMPUS 2023

Since the launch of the Campus 2023 development campaign, chaired by Gilles Pélisson in 2019, many Alumni have mobilised through their donations and/or their commitment to reach the goal required for the realisation of the project. True ambassadors of the ESSEC Campus 2023 project, they spread the word about the campaign through their networks in France and abroad.

EACH ENGAGING NETWORKS AROUND THE WORLD

Each event is co-mentored by one or two alumni and gathers about twenty alumni around Vincenzo Esposito Vinzi and Thierry Fritsch for an exchange on the project and its challenges.

Breakfast organised by Gilles Pélisson (E79) & Rodolphe Carle (E99) – TF1 | January 2020
Breakfast organised by Sandra Sancier-Sultan (E93) – Breakfast - Kinsey | March 2020
Olivier Marchal (E81) Bain & Company Challenge | March 2020
Virtual Exchange with Nancy Faure (E97) | July 2020
Virtual exchange UK with Benoit Verbrugghe (M99) | November 2020

Olivier Marchal Bain & Company Challenge
This challenge, initiated by Olivier Marchal (E81), mobilised the Bain ESSEC community, both current and former members of the firm, to make a significant donation to the ESSEC Campus 2023 project.

Campus 2023 is an extraordinary project that impressed me when I heard about it. It is a structuring step in the development of ESSEC for the years to come. It can position ESSEC as a pioneer and I hope, in the long term, enable the School to become one of the leaders in the global business school market.

Olivier Marchal (E81),
Chairman Bain & Company France
Member of the ESSEC Campus 2023 Development Committee
COMPANIES CAN GET INVOLVED!

Through the generosity of Accenture, we have received a significant donation over 3 years to fund the re-invention of the Cergy campus, Campus 2023.

One of the new buildings will be named “The Pierre Nanterme Centre for responsible leadership” in memory of Accenture’s late CEO, a major donor to the ESSEC Foundation, who passed away in 2019.

Each alumnus can commit through his or her company to this ambitious project, which responds to the challenges of tomorrow and will allow for an even stronger collaboration between companies and students so that their teams can confront future generations of decision-makers and managers in project mode.

Setting up a project like the 2023 campus is an absolute necessity for ESSEC. It will ensure the attractiveness and competitiveness of our school. This project is stimulating, refreshing, and environmentally friendly. It is therefore the perfect way to give, and even to give back on an ambitious project.

Benoit Verbrugghe (M99),
Member of the Campus 2023 Development Committee

HOW TO GET INVOLVED & CONTRIBUTE TO THE PROJECT

Make an online donation on the ESSEC Foundation website: fondation.essec.fr or via the donation form on page 27 of this brochure.

Invite your network of alumni to join Vincenzo Vinzi and engage them in this great collective adventure.

Involves your company through sponsorship.

To mobilise your network, get involved, contribute or simply find out more, please contact Fabienne Riom, Executive Director of the ESSEC Foundation: fabienne.riom@fondationessec.fr
In its new strategy, ESSEC has made a strong commitment to become the school of reference to accompany and positively influence the way we respond to the questions and new needs of companies, organisations and society. The value that underpins this ambition is the excellence of the faculty in terms of teaching and research.

ESSEC is among the best French academic institutions in terms of research, if we take as a criterion the number of academic publications produced by the faculty each year.

The research of our professors also feeds into the day-to-day content of our courses and enables us to provide our students with the level of reflection and mastery of management sciences that they need for their professional development.

Michel Baroni, Dean, ESSEC
Today, research and cutting-edge technologies are more than essential to enable society to evolve and ensure sustainable economic development.

ESSEC has chosen to invest in the field of artificial intelligence and has created Metalab, a unique interdisciplinary pedagogical research laboratory combining expertise in both physical and social sciences to shed light on practices at the intersection of “Data, technology and society” issues in order to train leaders in AI.

The ESSEC Foundation award is exciting and invaluable. In an unprecedented context, all means were used to re-deploy classroom life in a digital space, to foster the desire to connect and to be present (even at a distance), to revive the social connection and the sense of being together, to rediscover the energy to learn and to understand, and ultimately to work on being increasingly in command.

Chrystelle RICHARD, Award for Pedagogical Excellence

I would like to express my gratitude for this award from the ESSEC Foundation. As a research professor in data and analytics and holder of the Strategic Business Analytics Chair, it is a great honour to be awarded a teaching prize. Post-pandemic teaching will have to integrate the main aspects of e-learning that ESSEC professors had to master in a few weeks. The future of education starts now!

Jeoren Rombouts, Special Jury Prize ex aequo
To support ESSEC’s ambition and its new strategy, the ESSEC Foundation wishes to strengthen the financial independence of the School by encouraging alumni to endow the Endowment Fund.

Inspired by the model of the large American institutions, it was endowed at the creation of the Foundation by the contribution of the four founders and has continued to grow over the years. The Foundation’s Investment Committee has managed the fund prudently and rationally.

Today, following the unanimous agreement of the founders and the validation of the Foundation’s Executive Committee, it has been decided that part of this fund will be invested in the Campus 2023 project, with the ESSEC Foundation retaining ownership.

This Fund represents over 18% of the funds raised since 2011.

€1.7 million will therefore be invested in real estate, in order to guarantee the School’s continued existence and prepare it for ever-changing international competition.

The endowment fund gives the School greater autonomy, the increased and sustainable means to progress in the international rankings that are now so important, and thus improves ESSEC’s reputation.

Arnaud Flechich (E90)
In November 2020, the ESSEC Foundation, together with the School and ESSEC Alumni, launched the call for projects for this award.

Created on 11 December 2019, in tribute to Romain Chomel de Jarnieu (E08), this annual award aims to reward a project carried out by an ESSEC student within an association or structure promoting human commitment to help people in difficulty.

The Cheer Up ESSEC association wins the first edition with its ICARE project!

Cheer Up has been working since 2003 to help and support young people with cancer who are hospitalised. As part of the ICARE project, it offers flight lessons to 12 young cancer patients.

Two other associations were nominated: EDI for its “Coser Esperanza” initiative and Mission Potosi for a training centre project for young people in Cerro Rico.

I would like to warmly congratulate the Cheer Up ESSEC association for obtaining this award, which rewards their exemplary action in favour of sick children, so that the joy of living is greater than the illness. The three projects nominated for this year’s award are a demonstration of the humanism and commitment that characterise the ESSEC community.

Vincenzo Esposito Vinzi, Dean and President, ESSEC

The Foundation’s ceremony will take place on 22 September 2021 at the Palais Potocki in Paris. The award will be presented in the presence of General François Lecointre, Chief of Staff of the French Armed Forces and the Dean and President of ESSEC Vincenzo Esposito Vinzi. (health conditions permitting)

THANK YOU
Supporting the ESSEC Foundation is important for the influence of our school and therefore the value of our degrees: contributing to the quality of the facilities on campus increases the attractiveness of ESSEC for students, particularly foreign students, whose lives will revolve almost exclusively around the campus for several months. Furthermore, it seems to me that we have an ethical responsibility to encourage students who cannot afford to pay for their studies to take part in entry exams, through the funding of scholarships. Our certificate of excellence should be accessible to outstanding students, regardless of their background.

Anne-Charlotte Fredenucci (E98)

Yes, we can act for a better world, and with ESSEC give meaning to the leadership of tomorrow. Yes, it is worthwhile to commit oneself to something one knows and believes in. It has always been important for me to pass on what I have received and to share the opportunities I have been given. In order to perpetuate and maintain the ESSEC brand and its values, to develop the School and to enable it to offer its excellent training to all talents, I have chosen to regularly donate small and then medium-sized amounts to the Foundation, in line with my budget and my priorities. If you share this ambition and my convictions, do as I do: donate to a cause that truly matters to you.

Jean-Luc Meurisse (E80)

Education is a crucial investment. Achieving excellence is an equally important goal that ESSEC sets for itself. I am proud to help ESSEC today, as are many others, including those who have contributed in the past to the wonderful education I received.

Michel Bernard (E82)

I chose to get involved in the ESSEC Campus 2023 project by participating in the development committee. I have contacted some of the ESSEC alumni, especially those in my class, to raise awareness of the ESSEC Campus 2023 project, as not all of them are aware it exists; I am also mobilising as many people as possible so that they too can contribute to this ambitious project.

Nancy Faure (E97)

THE FOUNDATION’S TEAM
IS AT YOUR SERVICE

Thierry Fritsch (E80)
Volunteer President

The ESSEC Foundation is a sheltered foundation under the aegis of the Fondation de France. Recognised as a public utility, the Fondation de France, as a sheltered foundation, automatically allows donors to benefit from tax reductions on income tax and the IFl.

It also provides accounting, financial and legal monitoring, allowing the ESSEC Foundation to devote itself fully to the cause and to the choice of projects that mobilise it.

Anne-Sophia Felissaint
Communication and events officer
annesophia.felissaint@essec.edu

Fabienne Riom (E81)
Executive Director
fabienne.riom@fondationessec.fr

Lucie-Anne Henry
Director of Major Gift Development
lucie-anne.henry@fondationessec.fr

Sandrine Huyghe
ESSEC delegate / Data manager and administrator
fondation@essec.edu

In France - Tax deductions

Income tax (IRPP): 66% of your donation is deductible from your income tax, up to a limit of 20% of your taxable income, with a carry-over of the excess possible over 5 years.

Property tax (IFI): 75% of your donation is deductible from the IFI, with a ceiling of €50,000 deduction.

Corporate tax (IS): 60% of your donation is deductible from IS, up to a limit of 0.5% of net revenue or €20,000. For donations above this limit, the excess can be carried forward successively over the next 5 years.

As a tax resident in Europe and the United States

You benefit from tax deductions on your donation to the Foundation in your country of residence:

Germany, Belgium, Italy, the United Kingdom, Switzerland or the United States, you can make a donation online at: donate.transnationalgiving.eu/landing/FondationESSEC

Luxembourg: a specific measure allows you to make a donation directly to the ESSEC Foundation

Bulgaria, Hungary, Ireland, Netherlands, Poland, Romania, Slovakia, contact Sandrine Huyghe on +33 (0)1 34 43 37 01 or fondation@essec.edu

Transnational Giving Europe facilitates donations between European countries. Through the Fondation de France and its equivalents in each country, donors can benefit from tax deductions in their country of residence. More information on fondation.essec.edu
THANK YOU
